

Ultimate Hacking Keyboard

The keyboard. For professionals.

About Ultimate Gadgets Laboratories

- We're a Hungarian startup with an out-of-the-box mindset.
- We push technology to its limits.
- We design long-lasting, heirloom-grade hardware.
- We empower users by opening up our core technologies.
- We design for repair and care about sustainability.
- We manufacture most of the parts in Hungary and assemble in-house.

Our Core Team

László Monda - Founder & Lead Developer

- full-stack software developer and lifelong tinkerer
- developed the firmware
- designed the printed circuit boards

András Völgyi - Engineering & CAD

- mechanical engineer
- designed the keyboard case and all things mechanical
- will oversee manufacturing, assembly and fulfillment

UHK Key Features

- Truly split keyboard (ergonomic)
- Can be merged as one piece (compact, easy to carry)
- Mechanical key switches (durable, 50 million press per key switch)
- Built in mouse control (can be used as a mouse)
- Application specific macros and shortcuts (productivity gain)
